
NORTH STATE LAW ENFORCEMENT OFFICERS ASSOCIATION

63RD ANNUAL TRAINING CONFERENCE

JUNE 17-21, 2015

“TECHNOLOGICAL INNOVATIONS IN LAW ENFORCEMENT”

CLASSES: TRAINING GOALS/OBJECTIVES AND INSTRUCTORS

CAREER SURVIVAL: SOCIAL NETWORKING & DIGITAL COMMUNICATION

Instructor: Kevin West, Retired SBI, Cary PD, Cary, North Carolina

Lesson Purpose: To familiarize the student with the practices and procedures of social networking in the context of career survival.

Training Goals/Objective: At the end of this block of instruction, the participant will be able to achieve the following objectives in accordance with the information presented during the instructional period:

1. Differentiate between “social networking” and “digital communication”
2. Articulate the applications for various social networking sites and digital communication platforms
3. Illustrate the professional consequences of unethical and/or prohibited behavior via social networking and digital communication
4. Outline recent court decisions relating to social networking and digital communication
5. Given a model policy, revise it for implementation in student’s agency
6. Relate other policy areas which may be impacted by social networking and digital communication on duty
7. Compare and contrast the benefits and consequences of allowing/not allowing social networking and digital communication by employees
8. Given the topic “allowing social networking and digital communication in the criminal justice community”, develop an argument for debate

CAREER SURVIVAL: COMPUTER FORENSICS OVERVIEW (INTERNET FORENSICS AND INVESTIGATIONS - IFI)

Instructor: Kevin West, Retired SBI, Cary PD, Cary, North Carolina

Lesson Purpose: Use the internet to your investigative advantage

The IFI course will focus on using Internet artifacts to your tactical advantage during an investigation by answering the following questions:

1. How can investigators use the information found on the internet in their cases?
2. How can the internet be used during covert investigations?
3. Is it possible to remain anonymous on the internet?
4. How can I obtain identification information from different internet service providers?

Training Goal/Objective: Using a realistic case scenario, built on a Windows 8.1 Operating System, the IFI course takes an in-depth look at difference tools available to answer these questions and provides best practices to enhance the ability of investigators to use internet artifacts and information to their advantage during any type of investigation. Seven competency areas addressed:

1. Network Fundamentals – Home wireless networks
2. Internet Forensics
3. Email Tracing
4. Cooperation with international service providers
5. Cloud services + P2P/Instant messaging
6. Social media in investigations
7. Covert investigations

NORTH STATE LAW ENFORCEMENT OFFICERS ASSOCIATION

63RD ANNUAL TRAINING CONFERENCE

“TECHNOLOGICAL INNOVATIONS IN LAW ENFORCEMENT”

CLASSES: TRAINING GOALS/OBJECTIVES AND INSTRUCTORS

BODY WORN CAMERAS

Instructor: Barry D Rountree, Police Chief Winston-Salem PD, Winston Salem, North Carolina

Lesson Purpose: To provide an overview and understanding of body worn camera systems

Training Goals/Objectives: The student will be able to achieve the following objectives in accordance with the information received in class:

1. Understand body worn camera systems
 2. Understand policy considerations associated with body worn cameras
 3. Understand citizen and officer's perception on body worn cameras
 4. Understand the procedures to properly implement a body worn camera project
 5. Understand costs associated with video storage
 6. Review and understand NC document retention schedule for digital evidence
 7. Review and understand NC Public Records laws
-

WHERE ARE ALL OF THOSE DRONES COMING FROM AND WHAT ARE WE GONNA DO ABOUT 'EM?

Instructor: Wilson S. Weaver II, Assistant Chief, Winston-Salem PD, Winston Salem, North Carolina

Lesson Purpose: Discussion - Unmanned Aerial Vehicle Technology, the status of Federal and State regulations for the technology and the challenges/opportunities for law enforcement

Training Goal/Objectives: Upon successful completion of course, participants will have a basic understanding of Unmanned Aerial Vehicle Technology, the applicable Federal and State regulations for the technology, and the potential challenges facing Law Enforcement for both positive and negative interactions with the technology

CELL PHONE TRACKING

Instructor: E. Michael Smith, Retired SBI

Lesson Purpose: Train officers on retrieval of data from sources gathered from an investigation

Training Goal/Objectives: At the end of instruction, the participant will have a better understanding of data extraction and:

1. Be able to define data extraction
2. List equipment needed to extract data
3. Describe the process of transferring extracted data
